Epically Efficient Electronic Health Record Tools to Improve Your Practice

Mohammad Almeqdadi, MD

Transplant Hepatologist and Gastroenterologist

Assistant Professor of Medicine and Surgery, Tufts University School of Medicine

AASLD The Liver Meeting®

Disclosures

- No relevant financial relationships
- Epic Systems: I advise Epic as vice chair of its Hepatology Specialty Steering Board, and I worked with Epic as an Exemplar
- Every screen in this talk is a mock-up with invented data. None of it is a real patient or a real Epic screen

Slides are the property of the authors and AASLD. Permission is required from both AASLD and the author for reuse.

Objectives

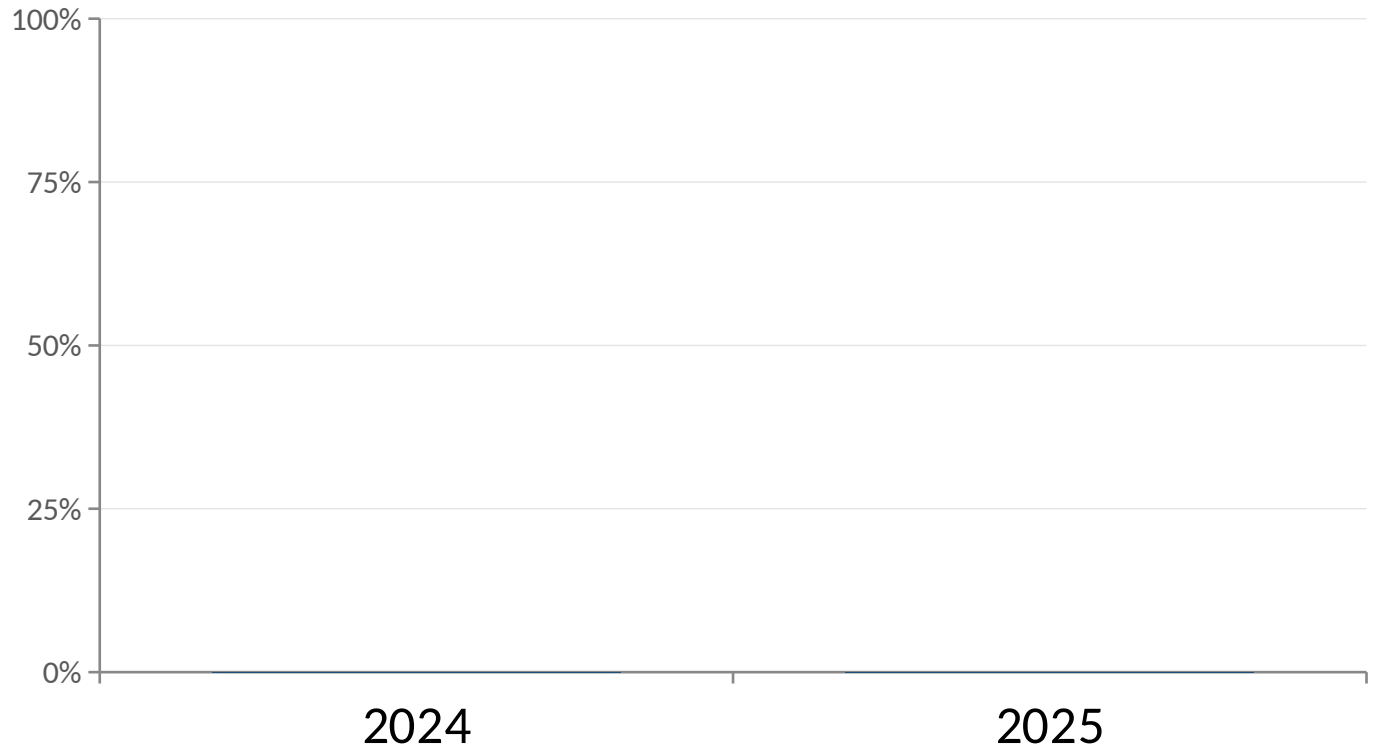

- Find what you need in the chart faster
- Spend less time on notes, orders and the In Basket
- Know which AI tools are live and what the evidence shows
- Measure your own EHR time

Slides are the property of the authors and AASLD. Permission is required from both AASLD and the author for reuse.

Why Epic?

What share of US transplants were done at a center using Epic's transplant module?

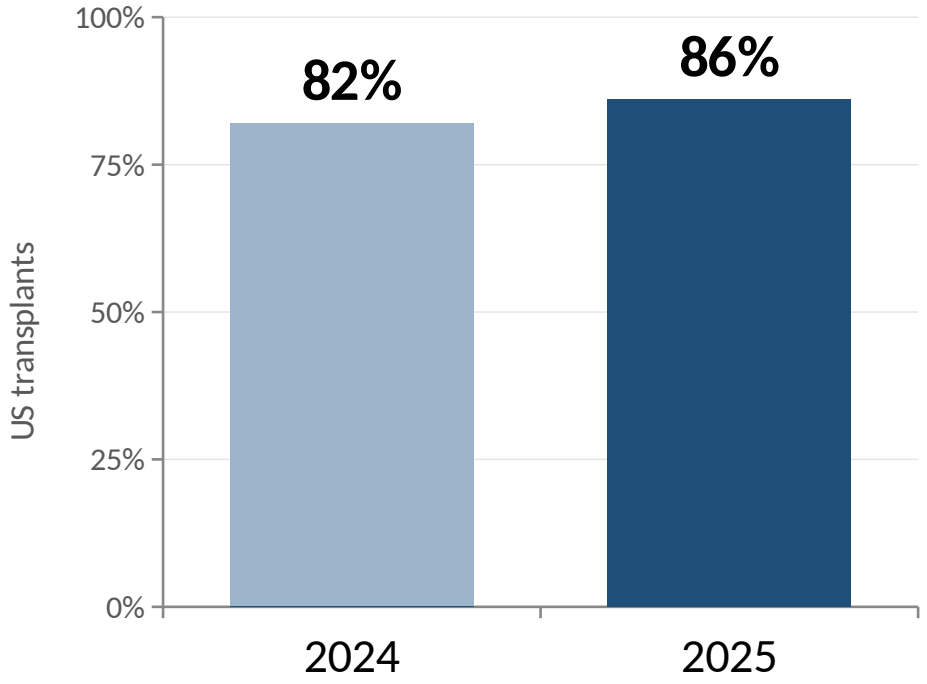

Epic UGM 2025, source OPTN (48,137 US transplants in 2024; 49,064 in 2025; Epic's transplant module is Phoenix)

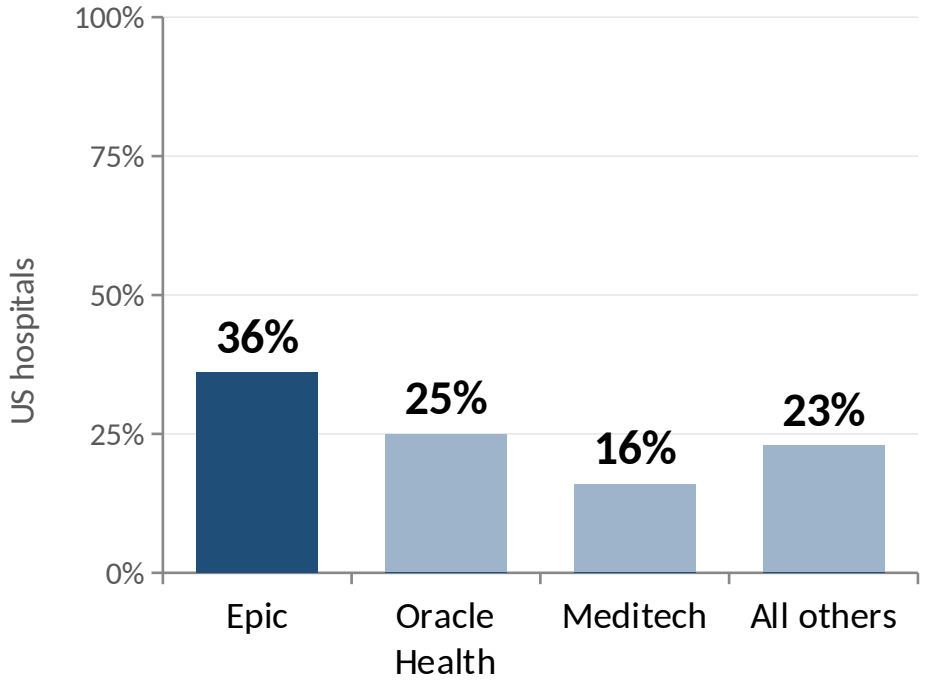

AASLD The Liver Meeting®

Slides are the property of the authors and AASLD. Permission is required from both AASLD and the author for reuse.

Why Epic?

What share of US transplants were done at a center using Epic's transplant module?

86% of transplants in 2025. Most of these tools have a version in the other systems

Epic UGM 2025, source OPTN (48,137 US transplants in 2024; 49,064 in 2025; Epic's transplant module is Phoenix). Hospitals: KLAS via Becker's Hospital Review, 2022

AASLD The Liver Meeting®

Slides are the property of the authors and AASLD. Permission is required from both AASLD and the author for reuse.

We used to call the resident who got the whole story from the patient a good historian.

AASLD The Liver Meeting®

Slides are the property of the authors and AASLD. Permission is required from both AASLD and the author for reuse.

We used to call the resident who got the whole story from the patient a good historian.

Today that resident also knows where everything is in the chart.

AASLD The Liver Meeting®

Slides are the property of the authors and AASLD. Permission is required from both AASLD and the author for reuse.

New referral

58M with cirrhosis. 14 years of records, 312 outside documents. 10 minutes before you walk in.

What do you want to know?

AASLD The Liver Meeting®

Slides are the property of the authors and AASLD. Permission is required from both AASLD and the author for reuse.

New referral

58M with cirrhosis. 14 years of records, 312 outside documents. 10 minutes before you walk in.

What do you want to know?

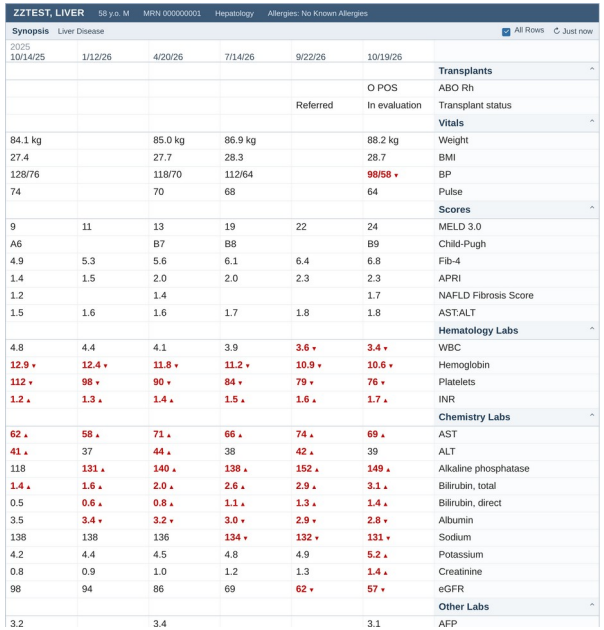

- Where his MELD is going
- Was the etiology workup done?
- Last imaging (HCC surveillance)
- Last EGD (varices)
- Current liver meds
- Is he still drinking?

AASLD The Liver Meeting®

Slides are the property of the authors and AASLD. Permission is required from both AASLD and the author for reuse.

We built three Synopsis views. You can too

One screen per disease cut physician previsit review from **7.0 to 4.95 minutes**

ZZTEST, LIVER is a 58 y.o. male seen for cirrhosis.

ASSESSMENT AND PLAN

Cirrhosis, alcohol-associated. MELD 3.0 24 (10/19/26). Child-Pugh B9.

- HCC surveillance: last imaging MR abdomen w wo contrast 7/14/2026. Next due in {3 months / 6 months}.
- Varices: last EGD 3/14/2023, small varices. On carvedilol: {yes / no}.
- Ascites: furosemide 40 mg daily, spironolactone 100 mg daily. Na 131, Cr 1.4.
- HE: lactulose 20 g 2 times daily, rifaximin 550 mg 2 times daily.
- Vaccines: hepatitis B ***, pneumococcal ***.
- Alcohol: PEth 210 (10/19/26). ***
- Transplant: {refer / discussed / not a candidate}.

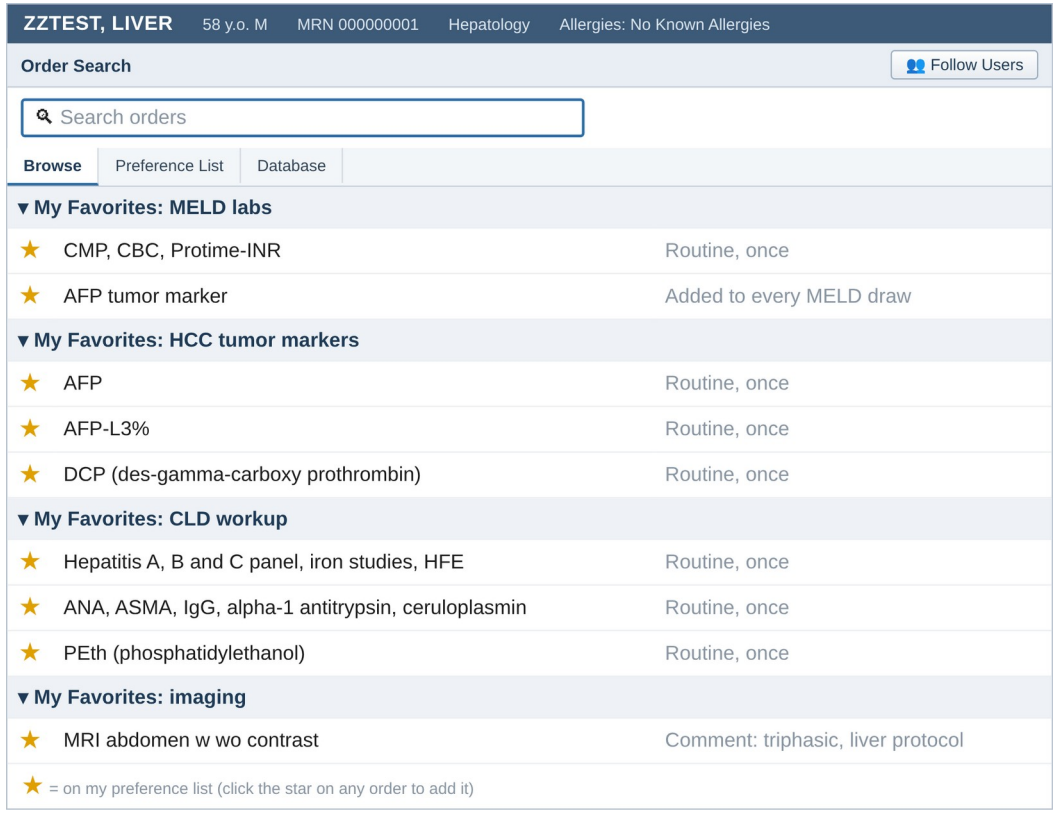

- Blue fields are pulled from the chart
- { } lists are one click
- *** has to be filled before you sign
- Share yours with colleagues, or use theirs
